

Product Spec + Menu Description Brief

Customer descriptions, ingredient language, staff specs and production workflow

Ridgway, Colorado

Working draft

madebutter.com

1. Purpose + Product Standard

This brief is a working product system, not the final recipe book.

madebutter. is part bakery and part product lab. The customer sees a simple menu, clean descriptions and real ingredients. The staff sees a controlled product system with base doughs, glazes, fillings, batch sizes, rack counts, quality targets and packaging standards.

The goal is to make every product feel like the photo, match the packaging as closely as possible and stay consistent from day to day. New flavors can rotate, but they must fit inside a known product family so the team can repeat them.

This document is meant to evolve after launch. Final formulas, exact gram weights, fry times, bake times, proofing schedules, allergen labels, vendor specs, food safety controls and shelf-life rules must be tested and approved before use.

Core rule: simple for guests, specific for staff. The menu should read clean. The production sheet should read like a small lab system.

2. How the Product System Works

Layer	What it controls	Example
Product family	The shape language and base workflow.	Milk donuts, mochi rings, old fashioned, kolaches, stuffed rolls.
Product name	The customer-facing item name.	Maple Brown Butter Bar.
Customer description	Short menu copy that explains the eating experience.	Long milk bar with maple brown butter glaze and cream drizzle.
Customer ingredient list	Simple visible ingredient language for menu, website and labels.	wheat flour, milk, butter, egg, sugar, yeast, maple, brown butter, cream, salt.
Staff ingredient system	Operational components staff prep, hold, finish and package.	milk bar dough, maple brown butter glaze, cream drizzle, fry oil, long sleeve.
Batch scale	Small, medium, large and extra large production logic.	test batch, weekday batch, weekend batch, event batch.
Quality target	What makes the item pass or fail.	same size, correct shape, clean glaze, no leaking, photo match.

3. Production Workflow + Inventory Counts

The production workflow must separate what is planned, what is prepped, what is ready to fry or bake and what is finished and sellable. This lets the team move fast without losing control of inventory.

Stage	Staff action	Count rule
Planned	Build daily production plan from live menu, pre-orders and expected walk-in demand.	Count as planned only. Not visible to customers.
Prepped	Mix doughs, make glazes, cook fillings, portion inserts, label containers.	Count as prep inventory by component.
Stored	Refrigerate doughs, fillings, molded inserts and glazes. Freeze extra molded fillings when appropriate.	Count by labeled container, mold tray or rack.
Pulled	Move refrigerated or tempered items to active production.	Count as pulled for production. Staff can see what is being worked.

Stage	Staff action	Count rule
Ready rack	Cut, shaped, proofed or staged items sit on a rack ready to fry or bake.	Count as in-process rack inventory. This helps staff know what can be finished next.
Finished rack	Fried or baked items are cooled, finished, inspected and placed on the sellable rack.	Add to live inventory only after QC. Anyone can grab from this rack for counter or orders.
Packed	Items are boxed, sleeved or assigned to an order.	Deduct from available inventory or mark as reserved.
Sold out	Inventory reaches zero or quality hold removes the item.	Remove from live menu immediately.

Important distinction: ready-to-fry or ready-to-bake items are production inventory. Finished items on the sellable rack are customer inventory. The system can show both to staff, but guests should only see finished or guaranteed-ready quantities.

4. Batch Scaling Rules

Batch sizes are examples for planning. The exact counts will change after testing, equipment choice and labor timing. Each category should scale by piece count, dough weight, filling weight, glaze yield, packaging count and waste buffer.

Batch size	Use case	Donuts example	Kolaches example	Stuffed rolls example
Small	Testing, photos, staff training, limited drop.	24 pieces	12 pieces	12 pieces
Medium	Normal weekday production.	72 pieces	36 pieces	30 pieces
Large	Weekend, pre-orders, high demand staples.	144 pieces	72 pieces	60 pieces
Extra large	Events, wholesale tests, frozen tests or busy holiday production.	288 pieces	144 pieces	120 pieces

Staff should not scale by eye. Each future recipe card should include a base formula, a multiplier, expected yield, rack count, proof or bake queue count and packaging count.

5. Customer Ingredient Language

Customer ingredient lists should feel honest, simple and semi-luxury. They should avoid sounding industrial. They can be grouped by real ingredient names, not every technical sub-ingredient until final labeling is required.

Style rule	Use
Keep it simple	wheat flour, milk, butter, egg, sugar, yeast, vanilla, salt.
Call out defining flavor	matcha, black sesame, banana, coffee, maple, brown butter, hojicha.
Use clean allergy language later	contains wheat, milk and egg. Produced in a kitchen that also handles soy, sesame, nuts and other allergens.
Do not overpromise	Do not claim organic, gluten-free, vegan or local unless the vendor and formula prove it.
Do not sound fake luxury	Use real flavor words instead of fancy filler.

6. Staff Ingredient System

Staff ingredient lists are not final formulas yet. They define base components, functional roles and prep responsibilities. The final formula book will later add exact grams, percentages, times and temperatures.

Component	Staff purpose	Examples
Base dough or batter	Controls shape, texture and repeatability.	milk donut dough, mochi-style dough, old fashioned dough, croissant-style kolache dough, milk-bread roll dough.
Filling	Controls flavor and center structure.	banana cream, coffee cream, smoked brisket insert, mushroom pepper insert.
Glaze or finish	Controls visual match and final flavor.	full top dip, thin glaze, right-side half dip, restrained drizzle, splatter.
Binder	Controls whether filling holds inside dough.	cheese, reduced jus, potato starch, mushroom reduction, dairy-free cheese, thick sauce.
Hold method	Controls timing, freshness and food safety.	refrigerated, frozen, tempered under refrigeration, proofed, ready rack.
Packaging	Controls travel-ready presentation.	square sleeve, portrait sleeve, long sleeve, box, label, order sticker.

7. Donut Production System

Donuts are built from families. Each family has one shape language and one staff workflow. Flavors change through glaze, filling, finish and restrained accents. Donuts may be mixed or prepped ahead depending on the dough family, then proofed and fired fresh so the case feels active in the morning.

The donut area uses two main stations: a dough and fry station for mixing, cutting, proofing, frying and cooling, and a finish station for glazes, fills, dips, drizzles, sleeves, boxes and quality review.

Family	Base workflow	Quality target
Milk Donuts	Mix, sheet or portion, cut rings, proof, fry, cool, full top dip.	soft, light, even ring, clean glaze line, no oiliness.
Milk Mochi Rings	Form connected bubble rings, rest or proof as tested, fry, cool, full top dip.	airy mochi-style feel, defined bubbles, clean glaze.
Butter Old Fashioneds	Mix thicker dough, chill, cut, fry, cool, thin glaze over ridges.	craggy, golden, ridged, structured, not dry.
Milk Cream Donuts	Cut round donuts, proof, fry, cool, fill, finish lightly.	soft round shape, clean fill point, no bursting.
Milk Bars	Cut long bars, proof, fry, cool, top dip with restrained drizzle.	straight, even height, soft center, clean top.
Half-Dipped Crullers	Deposit or pipe cruller rings, fry, cool, right-side half dip only.	light, airy, ridged, half dip direction consistent.
Butter Cake Donuts	Deposit batter, fry, cool, thin glaze with soft press marks.	buttery, cake style, not greasy, press marks subtle.
Market Fritters	Portion craggy fritter mix, fry carefully, cool, glaze.	rustic but controlled, cooked center, caramelized edges.

Milk Donuts

Asset slug	Menu name	Description	Customer ingredients
donut-milk-ring-vanilla-milk	Vanilla Milk Donut	Soft raised milk donut with vanilla milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, vanilla, salt
donut-milk-ring-chocolate-milk	Chocolate Milk Donut	Soft raised milk donut with chocolate milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, cocoa, vanilla, salt
donut-milk-ring-banana-cream	Banana Cream Donut	Soft raised milk donut with banana cream glaze.	wheat flour, milk, butter, egg, sugar, yeast, banana, vanilla, salt

Asset slug	Menu name	Description	Customer ingredients
donut-milk-ring-maple	Maple Milk Donut	Soft raised milk donut with maple milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, maple, vanilla, salt
donut-milk-ring-matcha-milk	Matcha Milk Donut	Soft raised milk donut with matcha milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, matcha, vanilla, salt
donut-milk-ring-strawberry-milk	Strawberry Milk Donut	Soft raised milk donut with strawberry milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, strawberry, vanilla, salt
donut-milk-ring-coffee-milk	Coffee Milk Donut	Soft raised milk donut with coffee milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, coffee, vanilla, salt
donut-milk-ring-black-sesame-honey	Black Sesame Honey Donut	Soft raised milk donut with black sesame glaze and honey finish.	wheat flour, milk, butter, egg, sugar, yeast, black sesame, honey, salt
donut-milk-ring-brown-butter-vanilla-salt	Brown Butter Vanilla Salt Donut	Soft raised milk donut with brown butter vanilla glaze and tiny salt.	wheat flour, milk, butter, egg, sugar, yeast, brown butter, vanilla, salt

Milk Mochi Rings

Asset slug	Menu name	Description	Customer ingredients
donut-mochi-ring-vanilla-milk	Vanilla Milk Mochi Ring	Airy mochi-style ring with vanilla milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, vanilla, salt
donut-mochi-ring-chocolate-milk	Chocolate Milk Mochi Ring	Airy mochi-style ring with chocolate milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, cocoa, vanilla, salt
donut-mochi-ring-strawberry-milk	Strawberry Milk Mochi Ring	Airy mochi-style ring with strawberry milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, strawberry, vanilla, salt
donut-mochi-ring-matcha-milk	Matcha Milk Mochi Ring	Airy mochi-style ring with matcha milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, matcha, vanilla, salt
donut-mochi-ring-banana-milk	Banana Milk Mochi Ring	Airy mochi-style ring with banana milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, banana, vanilla, salt
donut-mochi-ring-coffee-milk	Coffee Milk Mochi Ring	Airy mochi-style ring with coffee milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, coffee, vanilla, salt
donut-mochi-ring-black-sesame-honey	Black Sesame Honey Mochi Ring	Airy mochi-style ring with black sesame honey glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, black sesame, honey, salt
donut-mochi-ring-maple-brown-butter	Maple Brown Butter Mochi Ring	Airy mochi-style ring with maple brown butter glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, maple, brown butter, salt
donut-mochi-ring-hojicha-milk	Hojicha Milk Mochi Ring	Airy mochi-style ring with roasted hojicha milk glaze.	wheat flour, rice flour or mochi blend, milk, egg, sugar, hojicha, vanilla, salt

Butter Old Fashioneds

Asset slug	Menu name	Description	Customer ingredients
donut-old-fashioned-vanilla-milk	Vanilla Milk Old Fashioned	Craggy butter old fashioned with vanilla milk glaze.	wheat flour, butter, egg, sugar, milk, vanilla, salt
donut-old-fashioned-chocolate	Chocolate Old Fashioned	Craggy butter old fashioned with chocolate glaze.	wheat flour, butter, egg, sugar, milk, cocoa, vanilla, salt
donut-old-fashioned-maple-brown-butter	Maple Brown Butter Old Fashioned	Craggy butter old fashioned with maple brown butter glaze.	wheat flour, butter, egg, sugar, milk, maple, brown butter, salt
donut-old-fashioned-cacao-nib	Cacao Nib Old Fashioned	Craggy butter old fashioned with cacao glaze and nib finish.	wheat flour, butter, egg, sugar, milk, cocoa, cacao nib, salt
donut-old-fashioned-black-sesame	Black Sesame Old Fashioned	Craggy butter old fashioned with black sesame glaze.	wheat flour, butter, egg, sugar, milk, black sesame, salt
donut-old-fashioned-hojicha-maple	Hojicha Maple Old Fashioned	Craggy butter old fashioned with roasted hojicha maple glaze.	wheat flour, butter, egg, sugar, milk, hojicha, maple, salt
donut-old-fashioned-coffee-milk	Coffee Milk Old Fashioned	Craggy butter old fashioned with coffee milk glaze.	wheat flour, butter, egg, sugar, milk, coffee, vanilla, salt

Asset slug	Menu name	Description	Customer ingredients
donut-old-fashioned-matcha-sugar	Matcha Sugar Old Fashioned	Craggy butter old fashioned with matcha sugar glaze.	wheat flour, butter, egg, sugar, milk, matcha, vanilla, salt
donut-old-fashioned-lemon-milk	Lemon Milk Old Fashioned	Craggy butter old fashioned with lemon milk glaze.	wheat flour, butter, egg, sugar, milk, lemon, vanilla, salt

Milk Cream Donuts

Asset slug	Menu name	Description	Customer ingredients
donut-cream-filled-vanilla-custard	Vanilla Custard Cream Donut	Round milk donut filled with vanilla custard.	wheat flour, milk, butter, egg, sugar, yeast, vanilla custard, salt
donut-cream-filled-chocolate-cream	Chocolate Cream Donut	Round milk donut filled with chocolate cream.	wheat flour, milk, butter, egg, sugar, yeast, chocolate cream, salt
donut-cream-filled-strawberry-cream	Strawberry Cream Donut	Round milk donut filled with strawberry cream.	wheat flour, milk, butter, egg, sugar, yeast, strawberry cream, salt
donut-cream-filled-banana-cream	Banana Cream Donut	Round milk donut filled with banana cream.	wheat flour, milk, butter, egg, sugar, yeast, banana cream, vanilla, salt
donut-cream-filled-coffee-cream	Coffee Cream Donut	Round milk donut filled with coffee cream.	wheat flour, milk, butter, egg, sugar, yeast, coffee cream, salt
donut-cream-filled-matcha-cream	Matcha Cream Donut	Round milk donut filled with matcha cream.	wheat flour, milk, butter, egg, sugar, yeast, matcha cream, salt
donut-cream-filled-black-sesame-cream	Black Sesame Cream Donut	Round milk donut filled with black sesame cream.	wheat flour, milk, butter, egg, sugar, yeast, black sesame cream, salt
donut-cream-filled-hojicha-cream	Hojicha Cream Donut	Round milk donut filled with roasted hojicha cream.	wheat flour, milk, butter, egg, sugar, yeast, hojicha cream, salt
donut-cream-filled-lemon-milk-cream	Lemon Milk Cream Donut	Round milk donut filled with lemon milk cream.	wheat flour, milk, butter, egg, sugar, yeast, lemon milk cream, salt

Milk Bars

Asset slug	Menu name	Description	Customer ingredients
donut-milk-bar-maple-brown-butter-cream-drizzle	Maple Brown Butter Bar	Long milk bar with maple brown butter glaze and cream drizzle.	wheat flour, milk, butter, egg, sugar, yeast, maple, brown butter, cream, salt
donut-milk-bar-vanilla-milk-cream-drizzle	Vanilla Milk Bar	Long milk bar with vanilla milk glaze and cream drizzle.	wheat flour, milk, butter, egg, sugar, yeast, vanilla, cream, salt
donut-milk-bar-chocolate-milk-milk-drizzle	Chocolate Milk Bar	Long milk bar with chocolate milk glaze and milk drizzle.	wheat flour, milk, butter, egg, sugar, yeast, cocoa, vanilla, salt
donut-milk-bar-banana-cream-vanilla-splatter	Banana Cream Bar	Long milk bar with banana cream glaze and vanilla splatter.	wheat flour, milk, butter, egg, sugar, yeast, banana, vanilla, salt
donut-milk-bar-espresso-milk-cream-drizzle	Espresso Milk Bar	Long milk bar with espresso milk glaze and cream drizzle.	wheat flour, milk, butter, egg, sugar, yeast, espresso, cream, salt
donut-milk-bar-matcha-milk-cream-drizzle	Matcha Milk Bar	Long milk bar with matcha milk glaze and cream drizzle.	wheat flour, milk, butter, egg, sugar, yeast, matcha, cream, salt
donut-milk-bar-lemon-milk-cream-drizzle	Lemon Milk Bar	Long milk bar with lemon milk glaze and cream drizzle.	wheat flour, milk, butter, egg, sugar, yeast, lemon, cream, salt
donut-milk-bar-black-sesame-honey	Black Sesame Honey Bar	Long milk bar with black sesame glaze and honey finish.	wheat flour, milk, butter, egg, sugar, yeast, black sesame, honey, salt
donut-milk-bar-uzi-glaze-cream-splatter	Uzi Glaze Bar	Long milk bar with house cream glaze and restrained splatter.	wheat flour, milk, butter, egg, sugar, yeast, cream glaze, salt

Half-Dipped Crullers

Asset slug	Menu name	Description	Customer ingredients
donut-cruller-chocolate-glaze-right-half-dip	Chocolate Half-Dipped Cruller	Light French cruller with right-side chocolate glaze.	egg, butter, wheat flour, milk, sugar, cocoa, vanilla, salt

Asset slug	Menu name	Description	Customer ingredients
donut-cruller-orange-cream-right-half-dip	Orange Cream Half-Dipped Cruller	Light French cruller with right-side orange cream glaze.	egg, butter, wheat flour, milk, sugar, orange, cream, salt
donut-cruller-banana-cream-chocolate-splatter-right-half-dip	Banana Chocolate Half-Dipped Cruller	Light French cruller with banana cream glaze and chocolate splatter.	egg, butter, wheat flour, milk, sugar, banana, cocoa, salt
donut-cruller-white-mocha-mocha-splatter-right-half-dip	White Mocha Half-Dipped Cruller	Light French cruller with white mocha glaze and mocha splatter.	egg, butter, wheat flour, milk, sugar, coffee, white chocolate, salt
donut-cruller-matcha-cream-splatter-right-half-dip	Matcha Cream Half-Dipped Cruller	Light French cruller with matcha cream glaze and subtle splatter.	egg, butter, wheat flour, milk, sugar, matcha, cream, salt
donut-cruller-black-sesame-honey-right-half-dip	Black Sesame Honey Half-Dipped Cruller	Light French cruller with black sesame honey glaze.	egg, butter, wheat flour, milk, sugar, black sesame, honey, salt
donut-cruller-lemon-milk-splatter-right-half-dip	Lemon Milk Half-Dipped Cruller	Light French cruller with lemon milk glaze and subtle splatter.	egg, butter, wheat flour, milk, sugar, lemon, vanilla, salt
donut-cruller-espresso-cream-splatter-right-half-dip	Espresso Cream Half-Dipped Cruller	Light French cruller with espresso cream glaze and subtle splatter.	egg, butter, wheat flour, milk, sugar, espresso, cream, salt
donut-cruller-vanilla-milk-right-half-dip	Vanilla Milk Half-Dipped Cruller	Light French cruller with right-side vanilla milk glaze.	egg, butter, wheat flour, milk, sugar, vanilla, salt

Butter Cake Donuts

Asset slug	Menu name	Description	Customer ingredients
donut-cake-vanilla-butter-glaze-press-marks	Vanilla Butter Cake Donut	Butter cake donut with vanilla butter glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, vanilla, salt
donut-cake-chocolate-butter-glaze-press-marks	Chocolate Butter Cake Donut	Butter cake donut with chocolate butter glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, cocoa, vanilla, salt
donut-cake-blueberry-espresso-glaze-press-marks	Blueberry Espresso Cake Donut	Butter cake donut with blueberry espresso glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, blueberry, espresso, salt
donut-cake-banana-butter-glaze-press-marks	Banana Butter Cake Donut	Butter cake donut with banana butter glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, banana, vanilla, salt
donut-cake-lemon-poppy-glaze-press-marks	Lemon Poppy Cake Donut	Butter cake donut with lemon poppy glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, lemon, poppy seed, salt
donut-cake-coffee-crumb-glaze-press-marks	Coffee Crumb Cake Donut	Butter cake donut with coffee glaze and crumb finish.	wheat flour, butter, egg, milk, sugar, coffee, crumb, salt
donut-cake-black-sesame-glaze-press-marks	Black Sesame Cake Donut	Butter cake donut with black sesame glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, black sesame, salt
donut-cake-brown-butter-cinnamon-glaze-press-marks	Brown Butter Cinnamon Cake Donut	Butter cake donut with brown butter cinnamon glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, brown butter, cinnamon, salt
donut-cake-matcha-glaze-press-marks	Matcha Cake Donut	Butter cake donut with matcha glaze and soft press marks.	wheat flour, butter, egg, milk, sugar, matcha, vanilla, salt

Market Fritters

Asset slug	Menu name	Description	Customer ingredients
donut-fritter-apple-vanilla-glaze	Apple Vanilla Fritter	Craggy market fritter with apple and vanilla glaze.	wheat flour, milk, butter, egg, sugar, yeast, apple, vanilla, salt
donut-fritter-peach-brown-butter-glaze	Peach Brown Butter Fritter	Craggy market fritter with peach and brown butter glaze.	wheat flour, milk, butter, egg, sugar, yeast, peach, brown butter, salt
donut-fritter-blueberry-milk-glaze	Blueberry Milk Fritter	Craggy market fritter with blueberry milk glaze.	wheat flour, milk, butter, egg, sugar, yeast, blueberry, vanilla, salt
donut-fritter-banana-cream-glaze	Banana Cream Fritter	Craggy market fritter with banana cream glaze.	wheat flour, milk, butter, egg, sugar, yeast, banana, vanilla, salt
donut-fritter-espresso-mocha-glaze	Espresso Mocha Fritter	Craggy market fritter with espresso mocha glaze.	wheat flour, milk, butter, egg, sugar, yeast, espresso, cocoa, salt
donut-fritter-maple-pecan-brown-butter-glaze	Maple Pecan Brown Butter Fritter	Craggy market fritter with maple pecan brown butter glaze.	wheat flour, milk, butter, egg, sugar, yeast, maple, pecan, brown butter, salt

Asset slug	Menu name	Description	Customer ingredients
donut-fritter-lemon-cream-glaze	Lemon Cream Fritter	Craggy market fritter with lemon cream glaze.	wheat flour, milk, butter, egg, sugar, yeast, lemon, cream, salt
donut-fritter-black-sesame-apple-glaze	Black Sesame Apple Fritter	Craggy market fritter with apple and black sesame glaze.	wheat flour, milk, butter, egg, sugar, yeast, apple, black sesame, salt
donut-fritter-market-seasonal-glaze	Market Seasonal Fritter	Craggy market fritter with the current seasonal glaze.	wheat flour, milk, butter, egg, sugar, yeast, seasonal fruit or pantry glaze, salt

8. Kolache Product System

The three kolaches below are the base kolaches. They set the shape, size, packaging and core workflow. Second-tier kolaches can later add different cheeses, fillings, peppers, smoked meats or vegetarian builds as long as they stay within the same croissant-style kolache system.

Kolaches are made ahead, refrigerated and baked fresh in the morning. As testing improves, some filled kolaches may be par-baked or held in a more controlled chilled state so morning baking is faster and more consistent.

Production step	Standard		
Prep	Build croissant-style dough and fillings in advance. Meat and vegan fillings remain separated.		
Shape	Wrap and seal around the base filling. Jalapeno cheddar gets exactly two visible jalapeno slices as the visual rule.		
Hold	Refrigerate shaped kolaches in labeled racks or covered trays for the next day.		
Bake	Bake fresh in the morning until golden, flaky and hot in the center.		
Inventory	Count shaped trays as prep inventory. Count baked, cooled and QC-approved kolaches as sellable inventory.		
Expansion	Second-tier flavors must use the same size, seal, bake standard and packaging lane.		
Asset slug	Menu name	Description	Customer ingredients
kolache-croissant-all-beef-sausage	All-Beef Croissant Kolache	Flaky croissant-style kolache wrapped around all-beef sausage.	croissant-style dough, all-beef sausage, butter, egg wash, salt
kolache-croissant-all-beef-jalapeno-cheddar	All-Beef Jalapeno Cheddar Kolache	Flaky croissant-style kolache with all-beef sausage, cheddar and two baked jalapeno slices.	croissant-style dough, all-beef sausage, cheddar, jalapeno, butter, egg wash, salt
kolache-croissant-vegan-maple-sausage-dairy-free-cheese	Vegan Maple Sausage Kolache	Flaky croissant-style kolache with plant-based maple sausage and dairy-free cheese.	croissant-style dough, plant-based maple sausage, dairy-free cheese, maple-miso note, salt

9. Stuffed Roll Product System

Stuffed rolls are the most lab-driven product. The roll stays simple and consistent. The filling becomes the flavor system. Smoked meats, vegetables, cheeses, sauces and binders are cooked first, reduced or minced to the right texture, portioned into molds and held cold so they can be wrapped cleanly in dough.

For smoked meat batches, one brisket or one portion of a smoke can become a specific stuffed roll direction. The meat can be chopped, minced or sliced to spec, then tossed with peppers, cheese, reduced jus, miso sauce or other controlled ingredients. The filling must hold together without leaking.

Step	Staff standard
Cook filling fully	No raw meat or raw high-risk filling goes inside the dough.
Reduce moisture	Sauces and juices must be thick enough to bind without making the dough wet.
Choose texture	Test chopped, minced, sliced or blended vegetables and meats until the bite is clean.
Mold filling	Portion into long tubes or rounded rectangles using silicone molds or sleeve molds.

Step	Staff standard
Freeze or chill	Freeze extras for structure or refrigerate active production inserts.
Temper under refrigeration	Move frozen inserts to refrigeration before use so they soften enough to wrap but stay firm enough to handle.
Wrap in dough	Place the firm insert into milk-bread dough, seal tightly and proof.
Bake fresh	Bake until glossy, golden and hot through the center.
QC	Reject leaking, collapsed, underfilled, overfilled or messy rolls.

Breakfast Stuffed Rolls

Asset slug	Menu name	Description	Customer ingredients
roll-breakfast-sausage-gravy	Sausage + Gravy Roll	Soft milk-bread roll filled with all-beef breakfast sausage, fluffy egg, cheddar and peppery gravy.	milk-bread dough, all-beef sausage, egg, cheddar, pepper gravy, butter, salt
roll-breakfast-bacon-egg-cheese	Bacon, Egg + Cheese Roll	Soft milk-bread roll filled with crumbled bacon, fluffy egg and melted cheese.	milk-bread dough, bacon, egg, cheese, butter, salt
roll-breakfast-vegan-maple	Vegan Maple Breakfast Roll	Soft milk-bread roll filled with plant-based sausage, potato, roasted pepper, caramelized onion and maple-miso glaze.	milk-bread style dough, plant-based sausage, potato, roasted pepper, onion, maple-miso glaze, salt

Lunch Stuffed Rolls

Asset slug	Menu name	Description	Customer ingredients
roll-lunch-japanese-philly	Japanese Philly Roll	Soft milk-bread roll filled with shaved beef, onion, roasted pepper, white cheese and miso pepper sauce.	milk-bread dough, shaved beef, onion, roasted pepper, white cheese, miso pepper sauce, salt
roll-lunch-brisket-cheddar-pepper	Brisket Cheddar Pepper Roll	Soft milk-bread roll filled with smoked brisket, cheddar, roasted sweet peppers and smoky jus.	milk-bread dough, smoked brisket, cheddar, sweet peppers, onion, reduced jus, salt
roll-lunch-vegan-maple-sausage	Vegan Maple Sausage Roll	Soft milk-bread roll filled with plant-based sausage, roasted mushrooms, onion and maple-miso glaze.	milk-bread style dough, plant-based sausage, mushroom, onion, dairy-free cheese, maple-miso glaze, salt
roll-lunch-italian-drift	Italian Drift Roll	Soft milk-bread roll filled with shaved beef, provolone-style cheese, roasted peppers, onion and yuzu herb oil.	milk-bread dough, shaved beef, provolone-style cheese, roasted pepper, onion, garlic butter, yuzu herb oil, salt
roll-lunch-katsu-chicken	Katsu Chicken Roll	Soft milk-bread roll filled with crispy chicken katsu, cabbage slaw and savory sauce.	milk-bread dough, chicken, cabbage, egg or binder, panko, savory sauce, salt
roll-lunch-mushroom-pepper-melt	Mushroom Pepper Melt Roll	Soft milk-bread roll filled with roasted mushrooms, sweet peppers, onion and miso butter.	milk-bread dough, mushroom, sweet pepper, onion, cheese or dairy-free cheese, miso butter, salt
roll-lunch-green-chile-beef	Green Chile Beef Roll	Soft milk-bread roll filled with shaved beef, green chile, cheddar and caramelized onion.	milk-bread dough, shaved beef, green chile, cheddar, onion, salt

10. Handling, Prep + Cross-Contamination Control

The handling area is split into a vegetarian side and a meat side. The goal is not to make every product allergen-free. The goal is to keep workflows clear, prevent avoidable cross-contact and make staff habits repeatable.

Area	Use	Control standard
Vegetarian prep side	Vegetables, mushrooms, peppers, potatoes, dairy-free fillings, fruit, non-meat sauces.	Dedicated board, knives, containers, labels and clean-down routine.
Meat prep side	Smoked brisket, shaved beef, sausage, bacon, chicken and meat-plus-veg fillings.	Dedicated board, knives, containers, labels and temperature controls.
Shared finishing	Glaze, packaging, labels and finished product staging.	Use clean utensils, separate allergens and keep product identity clear.
Testing tools	Blender, slicer, mincer, knives, molds and scales.	Clean and sanitize between tests. Record texture method and final appearance.

11. Product Spec Sheet Template

Every approved item should eventually get a spec sheet. The spec sheet is what turns a creative test into a repeatable product.

Field	What to record
Product name	Customer-facing name and internal production name.
Asset slug	Lowercase file name for product photo and website asset.
Product family	Milk donut, mochi ring, kolache, breakfast roll or lunch roll.
Customer description	One short line for menu and website.
Customer ingredients	Simple ingredient list. Final legal labels come later.
Staff components	Base dough, filling, glaze, binder, finish and packaging.
Batch scale	Small, medium, large and extra large counts.
Prep method	Mix, cut, mold, chill, freeze, temper, proof, fry or bake.
Hold method	Room temp, refrigerated, frozen, tempered, ready rack, finished rack.
Inventory rule	When to count as prep, in-process, sellable or reserved.
Photo standard	Whole, cut open, boxed, sleeve or rack photo.
Reject notes	Leaking, poor shape, wrong size, poor glaze, bad fill, does not match photo.

12. Photo, Packaging + Menu Match Standard

The product photo is a standard, not just marketing. The final item should match the photo as closely as possible in size, shape, finish, filling visibility and packaging position. This is the madebutter. version of disciplined product display.

Standard	What it means
Photo match	Product should look like the menu image and packaging render as closely as staff can reasonably make it.
Same size by family	Ring donuts match ring donuts. Kolaches match kolaches. Bars and fritters have their own standards.
Travel-ready	Packaging protects the item without hiding the product. Sleeves and boxes should look clean.
White studio base	Use white paper, white background or clean neutral display for approved product photos.
Shelf and rack discipline	Finished product on the rack should look like a retail display, not a back-of-house pile.
No mystery items	Every product in the case should have a name, price, photo standard and inventory count.

13. Community Suggestions + Rotating Flavor Loop

madebutter. can stay interactive without making production chaotic. Guests can send as many suggestions as they want, but staff filters them through the product family system. A good idea becomes a test only when it can be produced, photographed, packaged and repeated.

Stage	Process
Collect	Guests submit flavor ideas, filling ideas, glaze ideas and limited drop ideas online.
Sort	Team groups ideas by product family: donut, kolache, stuffed roll, drink or pantry.
Screen	Reject ideas that are unsafe, too messy, too expensive, too slow or impossible to package cleanly.
Test	Run a small batch and photograph on white paper.
Score	Judge taste, appearance, repeatability, packaging, food cost and service speed.
Drop	Release as a market item with limited count and clear description.
Promote	If it sells well and stays repeatable, move it closer to staple or second-tier status.

14. Launch Priorities

The launch should protect the product system. Do not start with too many unrelated items. Start with base forms, learn volume, lock standards and let the menu expand from controlled families.

- Base kolaches first, then second-tier kolaches.
- Core donut families first, then rotating flavors inside each family.
- Core stuffed rolls first, then smoked meat and vegetable tests as limited drops.
- Inventory discipline before high-volume ordering.
- Photo standards before wide menu expansion.
- Customer ingredient language now, final formula book after production testing.

15. Future Companion Briefs
